

CopyNet Launch May 5th, 2014!

CopyNet Announcement

PrintNet Solutions, Inc. is pleased to announce the new Partnership with Ricoh® with the Launch of the state of the art CopyNet web to print solution geared toward vertical markets such as Education, Government, Healthcare, Business and more!

About CopyNet

CopyNet is a CLOUD based web to print forms and curriculum management system that will help support and automate K12 Schools, Universities, Government Centers, HealthCare facilities and most Businesses. CopyNet centralizes the print job submission as well as fully automates their Print Centers. CopyNet is the only cloud based curriculum/forms management system combining curriculum management and smart board technology for the new electronic class rooms. Customizable teacher pages for curriculum management and communication between teachers, students and parents. The Forms Manager organizes and deploys print submissions via the cloud for verticals such as healthcare/government and virtually all types of businesses.

Increase MFP Sales

CopyNet provides added-value to re-engage existing Ricoh® MFP customers with new WEB technology to simplify/centralize print submissions. CopyNet will increase your competitive advantage for securing new MFP customers by leveraging unique curriculum management and smart board and forms technology that increases MFP value and customer satisfaction.
